

Welcome to the October 2026 Edition!

Hello, Tale-Draggers!

NMRCC October Recap

We discussed equipment maintenance and noted that we need to have solar battery maintainers on both the lawnmower and the tractor so we can avoid dead batteries when the equipment sits for extended periods. At the end of the season, we also plan to have the lawnmower serviced to help ensure we get as much life out of it as possible.

We had our Maintenance Day on October 17, and although it was a small group, a LOT was accomplished. The fence line was cut, the last section of the runway was laid down, fallen trees cleared, and everyone got to enjoy a pizza lunch.

THANK YOU to everyone who came out and helped!

We also discussed the upcoming Fall Fly-In. The goal is to keep the event simple and relaxed. Right now, we are likely going to have Blackjack, Combat, lunch, and a raffle.

Speaking of the raffle, we want to give a big thank you to Arthur for donating a 182 foamy for the event.

We also talked about possibly having the flight simulator running during the Fly-In. We will need a volunteer to help set it up and keep an eye on it during the event, so if you are interested in helping with that, please let us know.

Finally, we discussed the idea of developing some type of STEM outreach program to help introduce kids to the hobby. We are still in the early stages of that idea and would welcome any suggestions, contacts, or ideas from club members.

Upcoming Events

November 5–8, 2026 – NMRCC Fall Fly-In

April 15–18, 2027 – NMRCC Spring Fly-In

Mark your calendars, and we hope to see everyone at the field!

Thank you to all that showed up to help at the Maintenance Day!

Top left: Fenceline cleared

Top Right: runway has been installed, the west piece needs more stretching and stapling. We expect this southern section to tighten up this next spring when the sun and heat get on it.

Bottom Left: Charlie put wheels on the gate to attempt to make the gate easier to open.
